

**In the Specification:**

**Please replace the paragraph beginning on page 14 line 15 with the following amended paragraph:**

According to an optional implementation of the present invention, the user is preferably able to define data and/or file(s) which are permitted for transfer ~~from~~ from the device of the user according to the present invention to another such device. When a plurality of devices according to the present invention interact, more preferably in a stand alone mode, each such device preferably transfers the data and/or file(s) which are permitted in an exchange, for example in order to be able to exchange personal data.
